# STOP TAIL TURN LIGHTS

Maxxima

Maxxima is one of the leading manufacturers and suppliers of LED lighting in the commercial vehicle industry, consumer and industrial markets. Maxxima offers the most comprehensive range of lighting products for a wide variety of applications.

LED lighting continues to revolutionize the lighting environment right in front of our eyes since they emit a very intense glow which is brighter than incandescent. They consume 10% of the energy required for incandescent, they are more resistant to shock, vibration and last a phenomenal 100,000 hours, or about a decade of regular use. Maxxima continues to introduce new and exciting products, many of which have been granted worldwide patent protection for their unique designs and functions which are exclusively available from Maxxima.

## MaxxHeat
